External Penetration Test Executive Summary 2026

SAMPLE CONTENT: synthetic, not real Azentio data. Fictional product for demonstration only.

Document date: 2026-05-05 | Product version: 6.2

1. Scope and result

An independent third party performed the annual external penetration test in April and May 2026 (report dated 5 May 2026). The scope covered the web application, the APIs and the cloud configuration. No critical or high findings were open at the report date.

2. Remediation

Two medium and five low findings were remediated within 30 days and closure was confirmed by retest. The full report is available under NDA.
